

REGIONAL COMMUNITY SAFETY AND RESILIENCE FORUM

Monthly Update – October 2016

Global Hand Washing day on 15 October was celebrated at Prek Tatheong village of Chitr Borei district with members of the community (Photo credit: Cambodian Red Cross)

Peer-to-peer learning is one of the key approaches for regional cooperation in Southeast Asia Red Cross Red Crescent Societies, which consist of:

- Brunei Darussalam Red Crescent Society,
- Cambodian Red Cross Society,
- Lao Red Cross,
- Malaysia Red Crescent Society,
- Myanmar Red Cross Society,
- Indonesian Red Cross Society,
- Philippine Red Cross,
- Singapore Red Cross Society,
- The Thai Red Cross Society,
- Timor-Leste Red Cross Society,
- Viet Nam Red Cross Society.

The regional Red Cross and Red Crescent societies have been taking part in networks for regional cooperation.

The Regional Community Safety and Resilience Forum (RCSRF), Gender and Diversity network, South-East Asia Youth Network as well as Disaster Law network are key for this regional cooperation. IFRC is also providing inputs for sharing information with Asia Pacific Migration Network. Terms of Reference (TOR) of some of these networks are:

- [Regional Community Safety and Resilience Forum – TOR](#)
- [South-East Asia Gender and Diversity Network - TOR](#)
- [South-East Asia Youth Network \(SEAYN\) - TOR](#)

Red Cross and Red Crescent advocate at Asia Ministerial Conference on Disaster Risk Reduction (AMCDRR) in Delhi

Last week, 44 representatives from the International Red Cross and Red Crescent Movement, including thirteen National Societies, joined senior-level government delegations and experts at AMCDRR to exchange experience and chart the way forward to build resilience and reduce disaster risk across the Asia region. The Movement called for greater investment in local actors and new partnerships to reduce disaster risk and increase community resilience. International Day for Disaster Reduction and ASEAN Day for Disaster Management

Photo credit: Thai Red Cross

Photo credit: Thai Red Cross

Thailand: Thai Red Cross in close collaboration with the Department of Disaster Prevention and Mitigation (DDPM), focal point for ASEAN Committee on Disaster Management (ACDM), and other network partners organized the celebration of ASEAN Disaster Management Day (ADDM) and International Day for Disaster Reduction (IDDR) 2016 on Sunday 9 October in Bangkok.

The ASEAN Committee on Disaster Management (ACDM) observes 13th October as ASEAN Day for Disaster Management in conjunction with the International Day for Disaster Risk Reduction. Aimed at creating “Safety Thailand” this year, the event was launched under the concept of “One ASEAN Community for Better Resilience” along with “Volunteers, Step up for Disaster Risk Reduction”, which encourages volunteers to prepare for disaster and community resilience. “This event is a major part of strengthening ASEAN community resilience and disaster preparedness. We have adopted the Sendai Framework for Disaster Risk Reduction 2015-2030 and promoted this mission to Thai society. Activities included the network presentation, a mini concert, performance by the Thai Red Cross youths and games” said Lt. Gen. Amnat Barlee M.D., Director of Relief and Community Health Bureau, the Thai Red Cross Society.

On 13 October 2016, the Thai Red Cross also organized a mangrove planting event at Banpu Nature Education Centre in Samut Prakarn province to raise awareness on the importance of disaster mitigation and the impact of climate change. Staff and volunteers from Thai Red Cross, IFRC, American Red Cross, Swedish Red Cross attended this activity together with a representative from the provincial office of Department of Disaster Prevention and Mitigation (Ministry of Interior).

Viet Nam: On 13 October, the Viet Nam Red Cross Society organized a meeting along with disaster response drill in Quang Nam province to celebrate the International Day for Disaster Reduction and launch the World Disaster Report of 2016. The event was attended by nearly 500 representatives from national and local government representatives, VNRC headquarters and chapters representatives, the IFRC Mekong Countries Cluster Support Team and Asia Pacific representatives, local youth and school representatives, among others.

Photo credit: Viet Nam Red Cross

Timor Leste: On 14 October 2016, Cruz Vermelha de Timor-Leste (CVTL) participated in a disaster preparedness exercise, exhibition, and cultural event on Disaster Risk Reduction Day commemoration organized by the government of Timor Leste in Fatuberliu, District of Manufahi.

Photo credit: Cruz Vermelha de Timor-Leste

Laos: [Lao Red Cross](#) organized the celebration of ASEAN Disaster Management Day (ADDM) and International Day for Disaster Reduction (IDDR) 2016 on Thursday 13 October in Khammouane. The slogan of this year is “One ASEAN Community for Better Resilience” and Volunteers, Step Up for Disaster Risk Reduction. Lao Red Cross staffs, volunteers, students participated in parade to promoting IDDR day and Disaster Risk Reduction and also arrange First Aid demonstration. Volunteers, students and community people were interested in this activity and had a chance to practice the first aid, a part of capacity building community based disaster risk reduction.

All IDDR day activities mentioned above were supported by the Government of Canada under the Regional Resilience Initiative (RRI).

Regional Resilience Initiative (RRI)

Monitoring visits with Canadian counterparts

In October, the IFRC team welcomed the monitoring visit from Canadian Red Cross as part of the Regional Resilience Initiative (RRI) and organized consultation meetings with Canadian government representatives, National Societies and other partners in Jakarta, Bangkok and Lao PDR. Key highlights of such visits included a visit to the AHA Centre, technical discussions with NS counterparts and a courtesy visit to the Ministry of Natural Resources and Environment of Lao PDR. All participants recognized the progress to-date of the RRI and acknowledged the strong partnerships that it has contributed to enhance at both national and regional levels. It was also a good opportunity to showcase success stories around Disaster Law, Gender and Diversity as well as engagement with ASEAN.

Monitoring and Evaluation Enhancement Process

The IFRC team in Bangkok launched a 6-month process this month to enhance the Monitoring and Evaluation (M&E) functions related to the high-level outcomes of the Regional Resilience Initiative (RRI). Beyond the direct result of trainings and events, the objective of such process is to document evidence of our overall contribution to three main strategic themes of the CCST Bangkok:

- Humanitarian Diplomacy, with a particular focus on Disaster Law
- Gender and Diversity mainstreaming in DRR / resilience programming
- Regional Cooperation on DRR, with a particular focus on ASEAN

As an initial step, the process was conducted in Bangkok and will continue to be rolled out in selected countries of Southeast Asia in November and December. It is anticipated that it will be completed in the first quarter of 2017.

Building Urban Resilience in Southeast Asia Project

At regional level: Regional PAPE Workshop was held on 18-20 October 2016 in Quezon City, Manila, the Philippines. The workshop participated by 30 participants from the National Societies of Viet Nam, Cambodia, Laos, Myanmar and the Philippines including the Red Cross Youth and Red Cross Volunteers in Quezon Chapter who implemented the project in the Philippines. The workshop was facilitated by team members from IFRC Bangkok CCST, IFRC Viet Nam Country Office, Spanish Red Cross and the Philippine Red Cross together with the Red Cross Red Crescent Climate Center.

As the host National Society, the Philippine RC General Secretary delivered the opening remarks with the Chairman of Quezon Chapter to all participants and hoped that the participants can enhance their knowledge and skills on the public awareness and public education especially in urban context and share their experiences to each other as peer-to-peer approach.

- **In the Philippines:** The activities for this month focused on strengthening and building capacity to the chapter based Red Cross Volunteers (RCV) and conducting training to the focal teachers and students, with the main purpose to increase the level of awareness, skill and knowledge of the volunteers and RC 143 focal teachers in terms of disaster preparedness, managing and retention of Red Cross Youth (RCY) volunteers in the schools and eventually response in any emergency cases when the need arises

- **In Lao PDR:** The **Kick-off Meeting for Building Urban Resilience project** was conducted in Vientiane Capital on 4th October 2016. The meeting attended by participants from the French Red Cross, Vientiane Capital Red Cross branch, Ministry of Labour and Social Welfare, Ministry of Education and Sport, Ministry of Human Resources and Environment, Care International and target schools. The meeting aims to sensitize participants with the project interventions and maximize resources among various partners toward the project implementation. On this occasion, the project team also shared its implementation plans and opened session for discussions and comments from participants.

- **In Cambodia:** **Second technical support visit** was conducted by Finnish RC, Cambodian RC Head of Disaster Preparedness, and IFRC Project Coordinator. The visit was highlighted by discussions on technical implementation and financial management. On 7 October, a briefing was conducted to ECHO Bangkok Representatives visiting Cambodia.
- **In Viet Nam:** **Launching Workshop of the “Building Urban Resilience” project** was conducted in Quy Nhon City by Mr. Tran Sy Pha, Deputy Director of the VNRC Disaster Management Department on the 15 -16th October 2016. The workshop was attended by 38 participants from Ward, City and Provincial authorities, schools together with VNRC and German RC staff. Project staff and stakeholders have gained knowledge about the project objectives and indicators, and an implementation plan has been drafted.

Youth and Volunteering

Viet Nam Red Cross YABC youths have designed youth-led activity in Da Nang and Ho Chi Minh City with the theme of the social inclusion and Da Nang Chapter has carried out its action in Oct 29-30. Da Nang youths jointly designed activities with Youth Union members, a total of 29 university students (16 Females, 13 males, a mixture of RC youths and Youth Union) and inspired them to be key agents of non-violence. The youths discussed about violent cases witnessed in communities and schools and highlighted: (i) family violence, (ii) school bullying and (iii) harassment. The event took place in Hoa Quy

Community Hall in Hoa Quy commune, Da Nang City with around 100 community people headed by a community leader and 60 high school students.

Outcomes of the activity:

1. Da Nang RC Chapter has established a connection with the Youth Union and could potentially gain the support from the Youth Union for future activities.
2. Da Nang RC Youth volunteers became confident with their first initiative and developed a sustainable youth empowerment programme with a small investment between USD 200-300 in a close cooperation with the Youth Union for an inspiration of change.
3. Vietnam RC Youth department gained a valuable experience from Da Nang Chapter and decided to expand this type of joint programme in other Chapters from 2017
4. This successful story will be shared with Southeast Asia Youth Network for other NSs to follow the model.

15th Southeast Asia Youth Network online Meeting

15th SEAYN online meeting was held 26 October with the attendance of 13 participants from 8 National Societies (Cambodia, Indonesia, Myanmar, Philippines, Thailand, CVTL, Singapore, Vietnam) and three IFRC personnel. The agenda for the meeting was 1) Report about Roles and Responsibility of Coordination Team members 2) Announcement on SEAYN meeting calendar and Newsletter collection whose deadline is Oct 31. 3) Southeast Asia National Societies Youth statistic data, information update including the uploaded reports on SEAYN annual meeting, Youth in School Safety Facilitators' Training and New Revised Guide on YSS facilitators Pilot version at <http://www.rcrc-resilience-southeastasia.org/youth-and-volunteering/> 4) Confirmation of SEAYN action plan 2016-2017 and school safety mapping . The development of 5th Newsletter is under the progress.

Cambodia WASH Programme

KRATIE PROVINCE

Hygiene Promotion awareness and Education session for fecal transmission route and diseases | 19-21 Oct 2016

Red Cross Volunteers home visit and dissemination of information on **fecal transmission route and diseases** at Prek Tatheoung village, Boseleau leav of Boseleav commune, Chitr Borei district.

The dissemination session contains:

- Diagram - Fecal transmission route and health hazards.
- Barriers for fecal transmission route.
- Suggested measure at household levels and community levels.

Deep tube well with solar panel

Development of water source for 2 villages have been identified, and one deep tube well drilling is completed and the second one is currently ongoing in the village.

- Two boreholes of 300 m deep and 7 m suction head were completed from 24th July 2016 until 12nd August 2016 in 2 target locations: at Koh Reusey Village, Toul Sdey Commune, and another one at Kork Teik Village, Chantrea Commune, Chantrea district.
- For water quality testing, the water sample was taken from both sites and tested by the Provincial Rural Development Department. There were no chemical parameters including arsenic and total coliform and E-coli detection was found in water source.
- Construction of other optional WASH facilities was started from 16th September until 19th October 2016 including 2 sets of plastic water tank contains 3,000 liters covered by zinc roof 4.17 m x 3.11 m. The concrete support the plastic water tank was 3.5 m x 2 m dimension with 3.5 m height and surrounded by cement 1.5 m.

Celebration of GHWD was conducted in 10 targeted villages

Viet Nam

Community Health Preparedness of Zika and Dengue

Training participants group photo

Community discussion

Community mapping the breeding sites of mosquitos

Viet Nam Red Cross (VNRC) conducted a Training on Community Health Preparedness of Zika and Dengue on 19-21 Oct 2016 in Ben Tre Province. 34 participants from 24 high-risk districts and communes took part in this training. It is expected that the participants are equipped with the knowledge and skills in taking preparedness action in response to the spread of Zika virus and mosquito borne diseases. The training was one among many initiatives supported by KOICA funded project which has been implemented by VNRC since 2015 in ten provinces throughout the country.

The training included sessions on:

1. Zika basic information and transmission and epidemics;
2. Application of ECV and BCC in fighting against Zika and Dengue;
3. Zika virus disease management;
4. Community health preparedness on Zika and Dengue;
5. Preparation of community assessment/discussion and household visits,
6. Group assignments and presentations after conducted community assessment and household visits (included the exercise of drafting the action plan and community mapping).

Flood Emergency Operation in Central Viet Nam

Water rose to rooftop in Phuong My commune, Huong Khe, Ha Tinh. Photo credit: Viet Nam Red Cross (16 October 2016)

Ha Tinh Red Cross Chapter staff provided relief goods to families affected by the flood in Phuong My, Huong Khe, Ha Tinh. Photo credit: Viet Nam Red Cross (16 October 2016)

Heavy flooding, as consequence of cold weather and torrential rainfall following Tropical Depression Aere, caused substantial damage in the central provinces of Nghe An, Ha Tinh, Quang Binh, Quang Tri and Thua Thien Hue. The provinces experienced heavy rainfall between 13 and 15 October. As a result, transportation on the main national road from the North to the South was disrupted. Many schools were closed. Rain started to reduce in the evening of 15 October, allowing for floodwater to recede around one meter in Tuyen Hoa district, Quang Binh province. On 16 October, rainfall has almost stopped but many areas remained inaccessible. A day later, many families in Son Trach commune, Bo Trach district, returned their homes and started cleaning.

In response to the emergencies, Viet Nam Red Cross (VNRC) dispatched relief items and cash, totalling VND 1.97 billion (CHF 85,000). Four Provincial Disaster Response Teams (PDRT) were deployed to carry out needs assessments and conduct relief distributions in Nghe An, Ha Tinh, Quang Binh and Quang Tri between 18 and 21 October 2016.

IFRC released the DREF of CHF 67,466 aiming to replenish relief items which have been distributed by VNRC, from preparedness stocks, to meet immediate needs of the most affected people. The replenishment will enable VNRC to be further prepared to future disaster events in this typhoon season.

Disaster Law dissemination

On 12 October, the Viet Nam Red Cross Society organized the Disaster Law workshop to share the progress and lessons learnt in the dissemination of the Law in Vietnam. Following the event, the Central Steering Committee for Natural Disaster Prevention and Control, the Viet Nam Red Cross Society and the IFRC signed the Cooperative Commitment to agree on collaborating in disseminating the Law in Vietnam, in the form of the [Tam Ky Compact on Disaster Laws](#) contains a four point action plan to guide our collaborative efforts in 2017, including on development of a handbook on DM Law (rights and responsibilities) for Vietnam, as well as community dissemination packages. See the [concept note](#) and [agenda](#).

Training on Gender and Diversity Mainstreaming in Emergencies

Hanoi, October 28, 2016 – The Viet Nam Red Cross Society (VNRC), with support from the French Red Cross and the International Federation of Red Cross and Red Crescent Societies (IFRC), organized Training on Gender and Diversity Mainstreaming in Emergencies for all VNRC departments. The training was to provide trainees with basic definitions of, the importance of and methods to mainstream Gender and Diversity in emergencies.

Indonesia

PMI mobilizing assistance in the flash floods that hit Garut, West Java

Flash floods hit Garut regencies in West Java on Tuesday (20/9/2016) night. Indonesian Red Cross (PMI) National Command Post Center reported that 33 people died, 31 injured and 22 missing while 6,019 people are displaced. Head of PMI West Java Chapter, Erlan Suherlan, said about 1,000 people were evacuated to military district command and several other locations.

The National Disaster Management Agency (BNPB) has recorded that 858 houses were destroyed, 207 damage, while the rest 1,446 has a minor damage.

Following the disaster, emergency aid in the form of blankets, tarpaulins, hygiene kits, diapers, food, flashlights, body bags, and water tank trucks are provided to communities affected by the disaster. PMI also mobilized emergency response teams (SATGANA) to carry out evacuations, establishing coordination with stakeholders and carry out rapid assessment. Up to date, PMI has distributed 51,500 liters of clean water, 550 blankets, 300 tarpaulins, 250 carpets, 520 hygiene kits, 60 body bags, 40 sarongs, 16 baby kits, and builded 10 temporary latrines for those who got affected by the disaster.

Community flood resilience project: A partnership of Palang Merah Indonesia, IFRC and Zurich Insurance

Palang Merah Indonesia continue to assist the government and communities in disaster risk reduction (DRR) program in Indonesia. PMI in partnership with IFRC and Zurich Insurance is developing, test and implementing scalable and innovative solutions with a focus on risk assessment and impact measurement. The partnership will also develop knowledge and influence the outcome of disaster risk reduction policies to strengthen community resilience. This community flood resilience project is rolling out in three rivers (Ciliwung, Citarum and Bengawan Solo), covering upstream to downstream. Bojonegoro, East Java, a city at Bengawan Solo watershed is one of 21 communities involved in this project.

The main activity in this project is to strengthen the capacity of communities in facing the threat of flood. PMI encourages the formation of village volunteers (Community-based Action Team), formulate of village regulations that support mitigation efforts and training for the community.

On Sunday, 2 October 2016, PMI organized Kitchen Management Training for 20 members of village volunteer. PMI Secretary of Bojonegoro Branch, Sukohawidodo explained that public kitchen management training is part of Risk Reduction Plan (RRP). Risk Reduction Plan is a result of community mitigation under Community Flood Resilience Project. *"This is one of the disaster risk reduction measures in the form of providing food during a flood,"* said Sukohawidodo. Public kitchen management training will provide knowledge and equip community. The training is expected to increase the ability of communities to provide healthy food. Provision of healthy food will reduce the risk of adverse event after the disaster

Staying on air to stay alert

Seven public service announcements about the work of the Indonesian Red Cross (PMI) have been broadcast consecutively. They contain various information about the Red Cross Red Crescent Movement, health and disasters, all designed harmoniously with the culture of the land of Nangroe, the alternative name for the province of Aceh.

Radio broadcasting was chosen as the media to convey messages as the people of Aceh are very familiar with radio broadcasting, given that it is easily accessible and in tune with people's sense for entertainment. Thus, radio broadcasting was considered as a quick and cheap media messenger with a wide coverage.

With this concept in mind, PMI pioneered a radio program together with the Irish Red Cross in 2006 and named it Rumoh PMI Radio – meaning "PMI house", in the sense of a common home. It was a means of spreading information during the rehabilitation and reconstruction period in Aceh, which was hit hard by the Indian Ocean Tsunami of 2004. For more, read this [link](#).

Singapore Psychological First Aid course to enhance community resilience

Singapore Red Cross launched the nation’s first Psychological First Aid (PFA) public training on World First Aid Day, 10 September. PFA enhances community resilience by empowering people to play an active role in helping their family and community in times of crisis. In the current global security environment, PFA serves as an additional line of defence to help Singapore respond to and bounce back from crisis; making Singapore a more cohesive and resilient community. For more information: [Read here](#)

Photo: To demonstrate the importance of first aid in building community resilience, the Singapore Red Cross themed its annual World First Aid Day outreach “First Aid Is For Everyone, Everywhere” and some 500 Singapore Red Cross volunteers and Singapore Red Cross Youth set the record for Singapore’s largest simultaneous first aid demonstration. Credit: Singapore Red Cross.

Timor-Leste Drought Operation: Food Voucher Distribution

On, 19 October 2016, Cruz Vermelha de Timor-Leste (CVTL) conducted food voucher distribution for 124 families of Soikili, Parira, and Laia-Ara Villages, District of Lautem. who are affected by drought caused by El Nino. A rapid assessment conducted by the Ministry of Agriculture and Fisheries (MAF) estimates that at least 120,000 people have been severely affected across five districts (Baucau, Covalima, Lautem, Oecusse and Viqueque), with 45.9 per cent of households across the country likely to experience food insecurity from April to June. Each family received around USD 50 to help them provide basic needs (food and water). Drought Operation in Timor-Leste will cover 20,000 people (4,000 families) in in Districts of Baucau, Lautem and Viqueque.
