Disaster Management Information System - DMIS

ระบบข้อมูลสารสนเทศเพื่อการจัดการภัยพิบัติ

What is DMIS?

- a web-based working tool
- users will be able to access: ผู้ใช้สามารถเข้าถึง
 - real time information on disaster trends ข้อมูลภัยพิบัติที่เกิดขึ้น
 - monitoring การติดตาม ตรวจสอบ
 - working documents, templates or a guide to formulating programmes. เพื่อใช้เป็นข้อมูลประกอบในการพัฒนาโครงการ

(เข้าเว็บ DMIS → https://www-secure.ifrc.org/DMISII/Pages/00_Home/homepage.aspx)

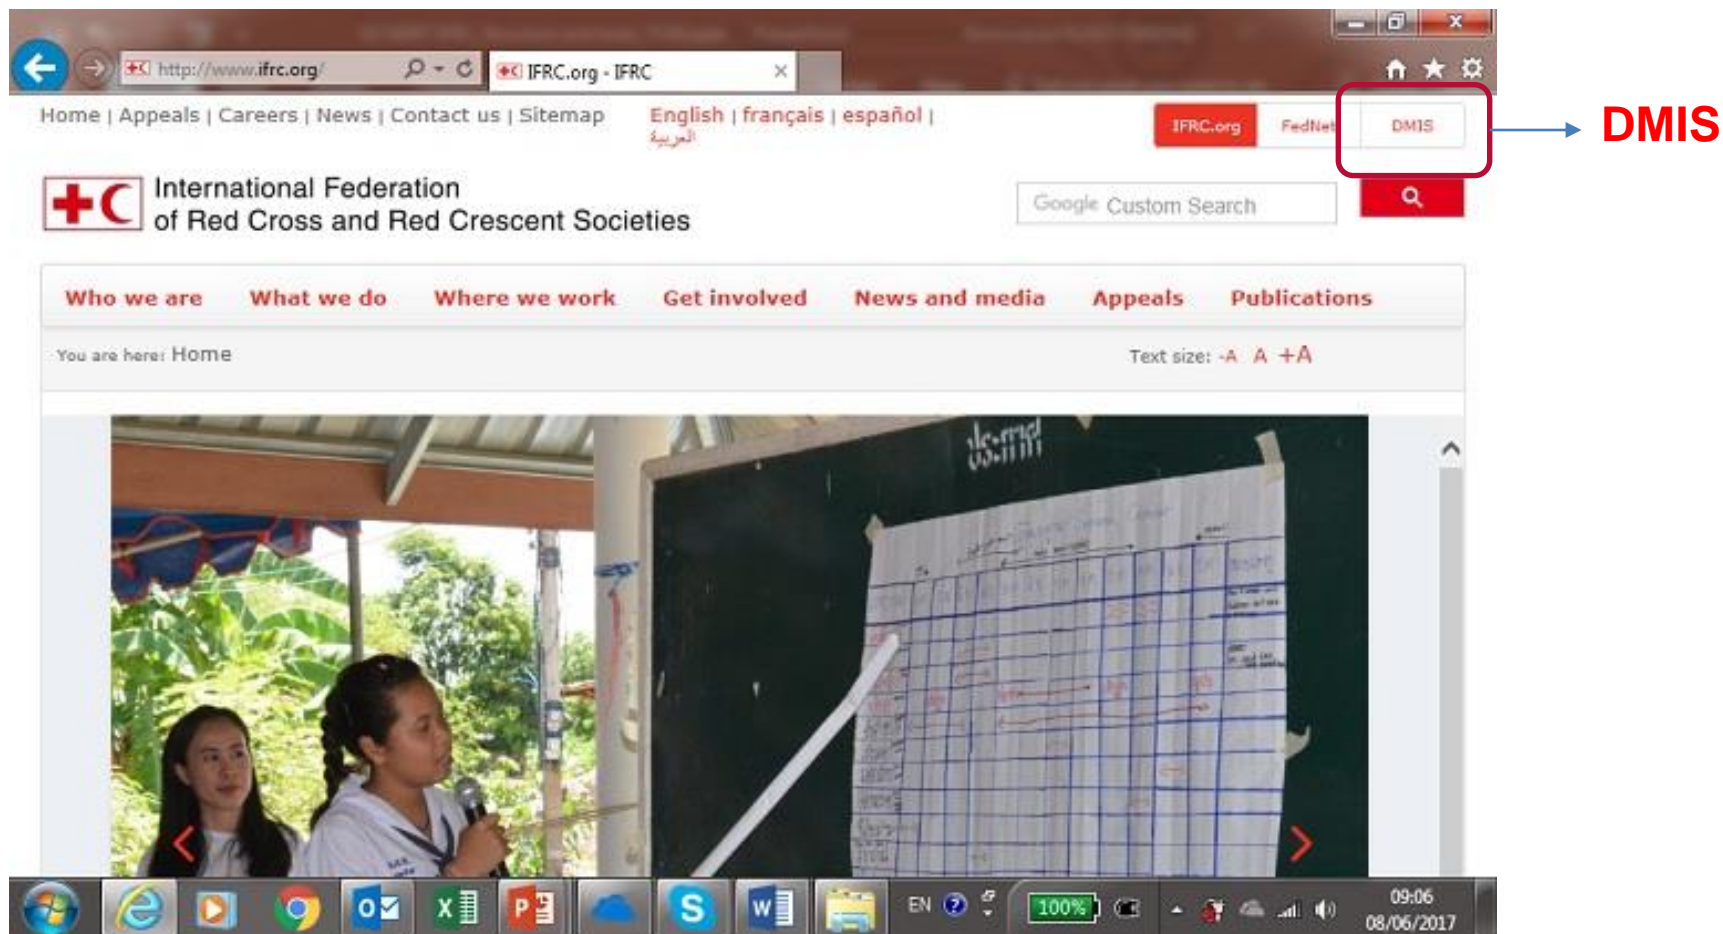

What is good about DMIS

- Enables good communication from field to global
- It's real time information, an alert mechanism
- The benefit of sharing the information is the awareness of the situation, of the NS response, activities.
- It is a library of useful information, templates
- It is a showcase of performance of NS: DMIS is a table where all the NS come to sit around and share.

Where do I access DMIS?

<http://www.ifrc.org/>

IFRC.org/FedNet/DMIS

The screenshot shows the IFRC website interface. At the top, the navigation bar includes links for Home, Appeals, Careers, News, Contact us, and Sitemap. A language selector shows English, français, español, and العربية. The IFRC.org and FedNet logos are visible, with the DMIS link highlighted by a red box and a blue arrow pointing to the text "DMIS". Below the navigation bar is the IFRC logo and the text "International Federation of Red Cross and Red Crescent Societies". A Google Custom Search bar is also present. The main content area features a horizontal menu with links: Who we are, What we do, Where we work, Get involved, News and media, Appeals, and Publications. Below this menu, a video player shows two women in white uniforms standing in front of a large grid chart. The Windows taskbar at the bottom displays various application icons and the system clock showing 09:06 on 08/06/2017.

Click on [this link](#) and your password will be sent automatically by e-mail

Request for a DMIS Account

How to proceed

Dear new user, please note that DMIS is a web based working tool made accessible only to Red Cross and Red Crescent staff working in National Societies, Delegations and Secretariat. If you do not belong to any of these categories, the request will not be processed.

Thank you!

Items marked with a * are mandatory.

Please complete the information below to have access to DMIS.

If you are a **volunteer**, please [click here!](#)

Full Name

- It is most important that you provide a valid e-mail address since this is used in contacts between you and the DMIS administrators.
- It is also this way you get information from the DMIS website, such as new passwords, automatically sent to you.
- If you have a personal RC email, please ensure it is included here. If not, we will come back to you. This will delay your request.

RC/RC E-mail address

Choose a Login name and a password for your DMIS account. ly use standard english characters and/or digits for your login name and password!

Emergency monitoring:

Disaster Relief Emergency Fund (DREF)

กองทุนฉุกเฉินเพื่อบรรเทาภัยพิบัติ

What is the DREF

- DREF provides emergency financial support to NS to meet the immediate humanitarian needs caused by the effects of disasters on vulnerable people through emergency relief operations (usually up to CHF 300,000).
- funding for response to large-scale disasters, for which an Emergency Appeal (EA) has or will be launched, OR to cover the costs of smaller-scale operations for which it is not appropriate to launch an EA.
- A DREF request should be submitted by the National Society within 7 days of the disaster.
- A DREF covers emergency response but also early warning and disaster preparedness interventions.

Emergency Appeal (EA)

การระดมทุนฉุกเฉิน

What is the EA ?

- EA is primarily a request to donors for assistance (a marketing document), issued within 0-72 hours after a disaster that requires international assistance.
- An EA is always based on a request from a NS, and is usually issued on the basis of a needs assessment.
- Emergency Appeals always consist of a narrative (plan of action) and a corresponding budget.
- EA has to be formally approved (authorized) by IFRC USG and SG.

Emergency Appeal (EA)

Emergency Appeal (EA) Facts

Purpose	<ul style="list-style-type: none">• An international marketing and positioning document launched by the IFRC at the request of a National Society• This document is designed to promote an operation and to generate funding from partners, donors, external audience, and public• Summarizes the information in the Emergency Plan of Action (<u>EPoA</u>)
Who's responsible for developing the document?	<ul style="list-style-type: none">• IFRC Zone office PMER with input from operations/DM programme manager and resource mobilization• Geneva DCM is responsible for quality control
Who is this for (audience)?	<ul style="list-style-type: none">• Donors• General public
Scope	<ul style="list-style-type: none">• Covers IFRC-wide operation
Timing	<ul style="list-style-type: none">• Depending on scope, size, and severity of the disaster, EAs are issued on the basis of the DREF allocation (and DREF <u>PoA</u>)
Where is it made available?	<ul style="list-style-type: none">• Public website• www.ifrc.org

Regional Disaster Response Team – RDRT

ทีมตอบสนองสถานการณ์ฉุกเฉิน

- The Regional Disaster Response Team initiative started in 1998
- The aim of RDRTs is to actively promote building of regional capacities in disaster response. Composed of NS volunteers and staff, they are trained to work as a team and bring assistance to NS in neighbouring countries.
- จุดประสงค์ RDRTs ส่งเสริมการสร้างขีดความสามารถ ของ
กาชาดในภูมิภาค เพื่อรับมือกับภัยพิบัติ

Regional Disaster Response Team – RDRT

ทีมตอบสนองสถานการณ์ฉุกเฉิน

Who are they?

- เจ้าหน้าที่ จากกาชาด หรือ อาสาสมัคร
ที่ได้รับรองจาก กาชาดต่างๆ
ผ่านการอบรม ในระดับประเทศ (NDRT)
และอบรมระดับภูมิภาค (RDRT)
เพื่อช่วยเหลือ NS ในประเทศเพื่อนบ้าน

- มีความเข้าใจในวัฒนธรรมที่คล้ายคลึงกันในภูมิภาคนั้นๆ
- มีความชำนาญ เชี่ยวชาญ ในสาขาต่างๆ เช่น relief, logistic, health, nutrition, epidemiology, PSP, WatSan, Finance and Administration.

How does it works?

- The training is organized by the IFRC which keeps a database of trained members,
- and alerts and deploys RDRT member on request of a National Society.
- IFRC pre-prepared field equipment, including computers and telecommunications, is kept at the delegations and deployed with the team.
- Member NSs were trained and will be ready to be deployed within 24 or 48 hours to support neighbouring National Society

Response Teams

RDRT, FACT, ERUs
have a key role in this situation
They closely work with NDRT

Coordination for RDRT deployment

The International Federation's Disaster Response Process

Field Assessment Coordination Teams (FACT)

ทีมงานประสานงาน ภาคสนาม

- Field Assessment Coordination Teams (FACT) are a vital part (IFRC) global emergency response tools.
- They are made up of experienced RCRC disaster managers who support National Societies and IFRC field offices to respond effectively to disasters.
- Different expertise in relief, logistics, health, nutrition, public health and epidemiology, water and sanitation, finance, administration, information management, psychological support

Field Assessment Coordination Teams (FACT)

ทีมงานประสานงาน ภาคสนาม

- Language capabilities
- Followed the 12 days of training to become members of FACT teams, able to support national RCRC in major disaster response.
- Ready for FACT deployment with 12 - 24 hour's notice for 4 to 6 weeks anywhere in the world.

Fact - How does it work?

- NS in the affected country may request assistance from the International Federation.
- The Federation Secretariat alerts FACT members all over the world using automated systems and requests their availability within 12 - 24 hours.
- A team is composed by the Secretariat and is deployed immediately to the disaster area

Fact - How does it work?

- Along with counterparts from the local National Society, members of the **RDRT** as well as Federation regional and/or country delegation and the **ICRC**, and **in co-ordination** with local authorities, **UN organizations and NGO's**,
- FACT team carries out **an assessment of the situation** and identifies the most urgent needs.

Emergency Response Units (ERUs)

- Standardised package of trained personnel and modules of equipment, ready to be deployed at short notice (24-72 hours).
- The units are fully self-sufficient for 1 month and can be deployed for up to 4 months
- provide a specific support or direct service function when local facilities are either destroyed, overwhelmed by needs, or do not exist.

Emergency Response Units (ERUs)

- Maintained and funded by NS, deployment coordinated by Geneva.
- Types of ERU: Logistics, IT & Telecom, WatSan, Basic Health Care, Referral Hospital, Rapid Deployment Hospital, Relief, Base Camp.
