1. Introduction

The South East Asia Youth Network(SEAYN) was developed in May 2013 in Kuala Lumpur Malaysia, the OD and Youth Forum. As a sub-network linked to a region-wide APYN, it has a special characteristic as a youth network by ensuring equal participation of NS staff and Youth leaders in it. By nominating their NS youth staffs and youth leaders (volunteers) to be members of the SEAYN, each NSs in the SEA region follows the SEAYN terms of reference which was officially endorsed by the Southeast Asia Leadership Meeting held in Singapore in March 2014.

The vision of SEAYN is to enhance South East Asia National Societies' service delivery by developing and empowering RCRC Youth, through peer to peer approach in the aspirations for a positive change. The Missions of Network aim to unite and represent the voices of SEA Youth Volunteers, Members, Staff and Supporters in the region and to encourage Youth engagement for greater humanitarian action, development and resilience. It also promotes a culture of friendship to learn and share best practices across the National Societies. It nominates its Coordination Team in the Network and develops its action plans to allow for SEA National Societies to strengthen youth and to encourage youth initiatives through the SEAYN, while also building capacity to extend peer to peer support among the SEAYN.

SEAYN conducted its first meeting in August 2014 in Phnom Penh, Cambodia where five National Societies (NSs) attended the meeting. The 2nd meeting was held in Singapore in December 2014 with the attendance of 11 NS youth leaders (volunteers only) as a response to the Beijing Call for Innovation adopted in the AP regional conference in Beijing, October 2014. The 3rd meeting was held in Jakarta, Indonesia with the attendance of 10NSs followed by the Regional CSR Forum in August 2015. The 4th annual meeting was held in Kuala Lumpur, Malaysia in September 2016 followed by the Youth in School Safety (YSS) Facilitators Training, the first Youth-led module in the Region.

The 5th meeting has been held from September 7-8 in Manila, Philippines hosted by the Philippine Red Cross(PRC), SEAYN Chair with the part of funding support from the CSR unit (under the RRI), IFRC CCST Bangkok. It was followed by the Youth Empowerment in Community Action (YEC) programme from September 4-6 2017, the second Youth-led module in the region. Please find the detailed agenda and participant list in the **Annex 1**

The YEC programme was held in the attendance of 21 youths (11 NS youth and 9 PRC youth) facilitated by PRC YABC Peer educators and Lao RC youth facilitator. The detailed training report will be followed in **Annex 2**.

[Novoy Dolde \(Chair SEAYN\)](#) ; Please refer to the presentation slide via [this link](#)

In general, the SEAYN through online meetings has been so far successful, mostly engaged, and getting stronger. National Societies is encouraged to start/set up a webinar depending on what theme they want to share/discuss.

There have been 4 online meetings up till date with more than 8-9 participants on average from 7-8 National Societies for each online meeting. The online meeting provides a great platform for information dissemination, sharing ideas and discussion of solutions from members.

Three Newsletters were developed and circulated to leadership, programme managers through online library. Singapore, Myanmar, Thailand, Cambodia and Philippines provided information and data for the newsletter.

ASEAN cooperation were strengthened through the attendance of ASEAN Youth Development Index Workshop participated by Novey as Chair and ASEAN Youth Volunteering Programme (AYVP) participated by Angeline as Deputy Chair.

SEAYN members joined the ASEAN School Safety Initiative Conference and presented about the YSS toolkit and its impact.

Three steering committee member and coordination committee members of APYN joined in KL APYN meeting, Singapore RC Youth Summit and Solferino Academy. SEA School Safety Mapping initiative was taken by SEAYN and all 11 NSs provided information and feedback on SS Mapping snapshots. Until now, Philippines, Indonesia, Singapore, Cambodia completed and the rest NSs are in the Final draft and in the designing process.

Main challenges were;

- Reporting to SEAYN was not carried on a regular basis. Information update is limited and not captured thru Newsletter, FB
- Advocacy is limited to leadership (case study, SEAYN Page)
- CT engagement was not regular
- Members leave and replacement

Recommendations

- It should be more open opportunities for youths to attend the regional and global events such as the Solferino.
- From the management perspective, just sending youth without an output and outcome to attend the events is not a right approach and the SEAYN needs to strengthen the representation with clear outcomes and bring back to each NSs.
- To have a better outcome sharing, a reporting system should be established (narrative reporting) within the network for any member's mission performance in a proper format.
