

Cook Islands

Sendai Framework Data Readiness Review - Report - Cook Islands

Generic

Do you have a national database for collecting disaster losses?

No

When do you plan to start collecting data attributed to disasters?

We just started

What resources do you need to collect data on disasters?

Capacity

Financial

Technology transfer

Global target A: Substantially reduce global disaster mortality by 2030

The scope of disaster in this and subsequent targets is defined in paragraph 15 of the Sendai Framework for Disaster Risk Reduction 2015-2030 and applies to small-scale and large-scale, frequent and infrequent, sudden and slow-onset disasters caused by natural or man-made hazards, as well as related environmental, technological and biological hazards and risk.

Indicator A-2: Number of deaths attributed to disasters, per 100,000 population.

Do you collect number of deaths attributed to disasters ?

Yes

The scope of disaster in this and subsequent targets is defined in paragraph 15 of the Sendai Framework for Disaster Risk Reduction 2015-2030 and applies to small-scale and large-scale, frequent and infrequent, sudden and slow-onset disasters caused by natural or man-made hazards, as well as related environmental,

technological and biological hazards and risk.

Indicator A-2: Number of deaths attributed to disasters, per 100,000 population.

Do you collect number of deaths attributed to disasters disaggregated by event?

Yes

Do you collect number of deaths attributed to disasters associated with a hazard type?

Yes

Do you collect number of deaths attributed to disasters disaggregated by location?

Yes

Do you collect number of deaths attributed to disasters disaggregated by age?

Yes

Do you collect number of deaths attributed to disasters disaggregated by sex?

Yes

Do you collect number of deaths attributed to disasters disaggregated by disability?

Yes

Do you collect number of deaths attributed to disasters disaggregated by income?

Yes

Does the collected data cover the entire period 2005 - 2015?

Yes

The scope of disaster in this and subsequent targets is defined in paragraph 15 of the Sendai Framework for Disaster Risk Reduction 2015-2030 and applies to small-scale and large-scale, frequent and infrequent, sudden and slow-onset disasters caused by natural or man-made hazards, as well as related environmental, technological and biological hazards and risk.

Indicator A-3: Number of missing persons attributed to disasters, per 100,000 population.

Do you collect number of missing persons attributed to disasters?

Yes

The scope of disaster in this and subsequent targets is defined in paragraph 15 of the Sendai Framework for Disaster Risk Reduction 2015-2030 and applies to small-scale and large-scale, frequent and infrequent, sudden and slow-onset disasters caused by natural or man-made hazards, as well as related environmental, technological and biological hazards and risk.

Indicator A-3: Number of missing persons attributed to disasters, per 100,000 population.

Do you collect number of missing persons attributed to disasters disaggregated by event?

Yes

Do you collect number of missing persons attributed to disasters associated with a hazard type?

Yes

Do you collect number of missing persons attributed to disasters disaggregated by location?

Yes

Do you collect number of missing persons attributed to disasters disaggregated by age?

Yes

Do you collect number of missing persons attributed to disasters disaggregated by sex?

Yes

Do you collect number of missing persons attributed to disasters disaggregated by disability?

Yes

Do you collect number of missing persons attributed to disasters disaggregated by income?

Yes

Does the collected data cover the entire period 2005 – 2015?

Yes

Global target B: Substantially reduce the number of affected people globally by 2030

Indicator B-2: Number of injured or ill people attributed to disasters, per 100,000 population.

Do you collect number of injured or ill people attributed to disasters?

Yes

Indicator B-2: Number of injured or ill people attributed to disasters, per 100,000 population.

Do you collect number of injured or ill people attributed to disasters disaggregated by event?

Yes

Do you collect number of injured or ill people attributed to disasters associated with a hazard type?

Yes

Do you collect number of injured or ill people attributed to disasters disaggregated by location?

Yes

Do you collect number of injured or ill people attributed to disasters disaggregated by age?

Yes

Do you collect number of injured or ill people attributed to disasters disaggregated by sex?

Yes

Do you collect number of injured or ill people attributed to disasters disaggregated by disability?

Yes

Do you collect number of injured or ill people attributed to disasters disaggregated by income?

Yes

Does the collected data cover the entire period 2005 – 2015?

Yes

Indicator B-3: Number of people whose damaged dwellings were attributed to disasters.

Do you collect number of people whose dwellings were damaged attributed to disasters?

Yes

Indicator B-3: Number of people whose damaged dwellings were attributed to disasters.

UNISDR can use the following sub-indicators to estimate number of people whose dwellings have been damaged attributed to disasters. This indicator will also be necessary for Calculation of C4

Do you collect number of dwellings that were damaged attributed to disasters?

Yes

Indicator B-3: Number of people whose damaged dwellings were attributed to disasters.

UNISDR can use the following sub-indicators to estimate number of people whose dwellings have been damaged attributed to disasters. This indicator will also be necessary for Calculation of C4

Does your official statistical data source provide number of people per household?

Yes

Indicator B-3: Number of people whose damaged dwellings were attributed to disasters.

Do you collect number of people whose dwellings were damaged attributed to disasters disaggregated by event?

Yes

Do you collect number of people whose dwellings were damaged attributed to disasters associated with a hazard type?

Yes

Do you collect number of people whose dwellings were damaged attributed to disasters disaggregated by location?

Yes

Do you collect number of people whose dwellings were damaged attributed to disasters disaggregated by age?

Yes

Do you collect number of people whose dwellings were damaged attributed to disasters disaggregated by sex?

Yes

Do you collect number of people whose dwellings were damaged attributed to disasters disaggregated by disability?

Yes

Do you collect number of people whose dwellings were damaged attributed to disasters disaggregated by income?

Yes

Does the collected data cover the entire period 2005 – 2015?

Yes

Indicator B-3: Number of people whose damaged dwellings were attributed to disasters.

UNISDR can use the following sub-indicators to estimate number of people whose dwellings have been damaged attributed to disasters. This indicator will also be necessary for Calculation of C4

Do you collect number of dwellings that were damaged attributed to disasters disaggregated by event?

Yes

Do you collect number of dwellings that were damaged attributed to disasters associated with a hazard type?

Yes

Do you collect number of dwellings that were damaged attributed to disasters disaggregated by location?

Yes

Do you collect number of dwellings that were damaged attributed to disasters at all scales?

Yes

Does the collected data cover the entire period 2005 – 2015?

Yes

Indicator B-4: Number of people whose destroyed dwellings were attributed to disasters.

Do you collect number of people whose dwellings were destroyed attributed to disasters?

Yes

Indicator B-4: Number of people whose destroyed dwellings were attributed to disasters.

Note: UNISDR can use the following sub-indicators to estimate number of people whose dwellings have been destroyed attributed to disasters. This indicator will also be necessary for Calculation of C4

Do you collect number of dwellings that were destroyed attributed to disasters?

Yes

Indicator B-4: Number of people whose destroyed dwellings were attributed to disasters.

Do you collect number of people whose dwellings were destroyed attributed to disasters disaggregated by event?

Yes

Do you collect number of people whose dwellings were destroyed attributed to disasters associated with a

hazard type?

Yes

Do you collect number of people whose dwellings were destroyed attributed to disasters disaggregated by location?

Yes

Do you collect number of people whose dwellings were destroyed attributed to disasters disaggregated by age?

Yes

Do you collect number of people whose dwellings were destroyed attributed to disasters disaggregated by sex?

Yes

Do you collect number of people whose dwellings were destroyed attributed to disasters disaggregated by disability?

Yes

Do you collect number of people whose dwellings were destroyed attributed to disasters disaggregated by income?

Yes

Does the collected data cover the entire period 2005 - 2015?

Yes

Indicator B-4: Number of people whose destroyed dwellings were attributed to disasters.

Note: UNISDR can use the following sub-indicators to estimate number of people whose dwellings have been destroyed attributed to disasters. This indicator will also be necessary for Calculation of C4

Do you collect number of dwellings that were destroyed attributed to disasters disaggregated by event?

Yes

Do you collect number of dwellings that were destroyed attributed to disasters associated with a hazard type?

Yes

Do you collect number of dwellings that were destroyed attributed to disasters disaggregated by location?

Yes

Do you collect number of dwellings that were destroyed attributed to disasters at all scales?

Yes

Does the collected data cover the entire period 2005 – 2015?

Yes

Indicator B-5: Number of people whose livelihoods were disrupted or destroyed, attributed to disasters.

Do you collect number of people whose livelihoods were disrupted or destroyed, attributed to disasters?

Yes

Indicator B-5: Number of people whose livelihoods were disrupted or destroyed, attributed to disasters.

UNISDR can use the following sub-indicators to estimate number of people whose livelihoods were disrupted or destroyed, attributed to disasters. This indicator will also be necessary for Calculation of C2

Do you collect physical damage to the agricultural sector attributed to disasters?

Yes

Indicator B-5: Number of people whose livelihoods were disrupted or destroyed, attributed to disasters.

Do you collect number of people whose livelihoods were disrupted or destroyed, attributed to disasters disaggregated by event?

Yes

Do you collect number of people whose livelihoods were disrupted or destroyed, attributed to disasters

associated with a hazard type?

Yes

Do you collect number of people whose livelihoods were disrupted or destroyed, attributed to disasters disaggregated by location?

Yes

Do you collect number of people whose livelihoods were disrupted or destroyed, attributed to disasters disaggregated by age?

Yes

Do you collect number of people whose livelihoods were disrupted or destroyed, attributed to disasters disaggregated by sex?

Yes

Do you collect number of people whose livelihoods were disrupted or destroyed, attributed to disasters disaggregated by disability?

Yes

Do you collect number of people whose livelihoods were disrupted or destroyed, attributed to disasters disaggregated by income?

Yes

Does the collected data cover the entire period 2005 – 2015?

Yes

Indicator B-5: Number of people whose livelihoods were disrupted or destroyed, attributed to disasters.

UNISDR can use the following sub-indicators to estimate number of people whose livelihoods were disrupted or destroyed, attributed to disasters. This indicator will also be necessary for Calculation of C2

Do you collect number of hectares on crop land damaged by disasters?

Yes

Do you collect type of crops damaged by disasters?

Yes

Do you collect number of hectares of aquacultures damaged by disasters?

Yes

Do you collect number of fishing vessels damaged by disasters (Fisheries)?

No

Do you collect type of fishing vessels damaged by disasters (Fisheries)?

No

Do you collect number of hectares of forests damaged by disasters?

No

Do you collect type of forests (incl. Plantations) damaged by disasters?

Yes

Do you collect number of livestock lost by disasters?

No

Do you collect type of livestock lost by disasters?

No

Do you collect physical damage to the agricultural sector attributed to disasters disaggregated by event?

Yes

Do you collect physical damage to the agricultural sector attributed to disasters associated with a hazard

type?

Yes

Do you collect physical damaged on agricultural sector attributed to disasters disaggregated by location?

Yes

Do you collect physical damage to the agricultural sector attributed to disasters at all scales?

Yes

Does the collected data cover the entire period 2005 – 2015?

Yes

Global target C: Reduce direct disaster economic loss in relation to global GDP

Indicator C-2: Direct agricultural loss attributed to disasters.

Agriculture is understood to include the crops, livestock, fisheries, apiculture, aquaculture and forest sectors as well as associated facilities and infrastructure.

Do you collect data on direct economic agricultural loss attributed to disasters?

Yes

Indicator C-2: Direct agricultural loss attributed to disasters.

Agriculture is understood to include the crops, livestock, fisheries, apiculture, aquaculture and forest sectors as well as associated facilities and infrastructure.

UNISDR can use the following sub-indicators to estimate direct economic agricultural loss attributed to disaster.

Do you collect physical damage to the agricultural sector attributed to disasters?

Yes

Do you collect number of hectares on crop land damaged by disasters?

No

Do you collect type of crops damaged by disasters?

Yes

Do you collect number of hectares of aquacultures damaged by disasters?

No

Do you collect number of fishing vessels damaged by disasters (Fisheries)?

No

Do you collect type of fishing vessels damaged by disasters (Fisheries)?

No

Do you collect number of hectares of forestry damaged by disasters?

No

Do you collect type of forests (incl. Plantations) damaged by disasters?

Yes

Do you collect number of livestock lost by disasters?

No

Do you collect type of livestock lost by disasters?

No

Do you collect physical damage to the agricultural sector attributed to disasters disaggregated by event?

Yes

Do you collect physical damage to the agricultural sector attributed to disasters associated with a hazard

type?

Yes

Do you collect physical damage to the agricultural sector attributed to disasters at all scales?

Yes

Does the collected data cover the entire period 2005 – 2015?

Yes

Indicator C-3: Direct economic loss to all other damaged or destroyed productive assets attributed to disasters.

Productive assets would be disaggregated by economic sector, including services, according to standard international classifications. Countries would report against those economic sectors relevant to their economies. This would be described in the associated metadata.

Do you collect data on direct economic loss due to all other damaged or destroyed productive assets attributed to disasters?

Yes

Indicator C-3: Direct economic loss to all other damaged or destroyed productive assets attributed to disasters.

Productive assets would be disaggregated by economic sector, including services, according to standard international classifications. Countries would report against those economic sectors relevant to their economies. This would be described in the associated metadata.

Do you collect physical impact to all other damaged or destroyed productive assets attributed to disasters?

Yes

Indicator C-3: Direct economic loss to all other damaged or destroyed productive assets attributed to disasters.

Productive assets would be disaggregated by economic sector, including services, according to standard international classifications. Countries would report against those economic sectors relevant to their economies. This would be described in the associated metadata.

Please specify the sectors where direct economic loss due to all other damaged or destroyed productive assets attributed to disasters are collected?

Tourism, Business sector and Agriculture

Do you collect direct economic loss due to all other damaged or destroyed productive assets attributed to disasters disaggregated by event?

Yes

Do you collect direct economic loss due to all other damaged or destroyed productive assets attributed to disasters associated with a hazard type?

Yes

Do you collect direct economic loss due to all other damaged or destroyed productive assets attributed to disasters disaggregated by location?

Yes

Do you collect direct economic loss due to all other damaged or destroyed productive assets attributed to disasters at all scales?

Yes

Does the collected data cover the entire period 2005 – 2015?

Yes

Indicator C-3: Direct economic loss to all other damaged or destroyed productive assets attributed to disasters.

Productive assets would be disaggregated by economic sector, including services, according to standard international classifications. Countries would report against those economic sectors relevant to their economies. This would be described in the associated metadata.

Note: UNISDR can use the following sub-indicators to estimate a proxy for direct economic loss due to all other damaged or destroyed attributed to disasters

Do you collect number of industrial facilities destroyed or damaged by disasters?

Yes

Do you collect number of commercial buildings destroyed or damaged by disasters?

Yes

Do you collect number of tourism facilities (such as hotel) destroyed or damaged by disasters?

Yes

Do you collect number of industrial facilities destroyed or damaged by disasters?

Yes

Do you collect physical impact to all other damaged or destroyed productive assets attributed to disasters disaggregated by event?

Yes

Do you collect physical impact to all other damaged or destroyed productive assets attributed to disasters associated with a hazard type?

Yes

Do you collect physical impact to all other damaged or destroyed productive assets attributed to disasters disaggregated by location?

Yes

Do you collect physical impact to all other damaged or destroyed productive assets attributed to disasters at all scales?

Yes

Does the collected data cover the entire period 2005 - 2015?

Yes

Indicator C-4: Direct economic loss in the housing sector attributed to disasters.

Data would be disaggregated according to damaged and destroyed dwellings.

Note: UNISDR can use the following sub-indicators to estimate direct economic loss in the housing sector attributed to disasters.

Do you collect data on direct economic loss in the housing sector attributed to disaster?

Yes

Indicator C-4: Direct economic loss in the housing sector attributed to disasters.

Data would be disaggregated according to damaged and destroyed dwellings.

Note: UNISDR can use the following sub-indicators to estimate direct economic loss in the housing sector attributed to disasters.

Do you collect number of dwellings that were damaged attributed to disasters?

Yes

Indicator C-4: Direct economic loss in the housing sector attributed to disasters.

Data would be disaggregated according to damaged and destroyed dwellings.

Note: UNISDR can use the following sub-indicators to estimate direct economic loss in the housing sector attributed to disasters.

Do you collect number of dwellings that were destroyed attributed to disasters?

Yes

Indicator C-4: Direct economic loss in the housing sector attributed to disasters.

Data would be disaggregated according to damaged and destroyed dwellings.

Note: UNISDR can use the following sub-indicators to estimate direct economic loss in the housing sector attributed to disasters.

Does your official statistical data source provide (average value per square meter of construction, average size of dwelling, average value of dwelling)?

No

Indicator C-4: Direct economic loss in the housing sector attributed to disasters.

Data would be disaggregated according to damaged and destroyed dwellings.

Do you collect direct economic loss in the housing sector attributed to disaster disaggregated by event?

Yes

Do you collect direct economic loss in the housing sector attributed to disaster associated with a hazard type?

Yes

Do you collect direct economic loss in the housing sector attributed to disaster disaggregated by location?

Yes

Do you collect direct economic loss in the housing sector attributed to disaster at all scales?

Yes

Does the collected data cover the entire period 2005 – 2015?

Yes

Indicator C-4: Direct economic loss in the housing sector attributed to disasters.

Data would be disaggregated according to damaged and destroyed dwellings.

Note: UNISDR can use the following sub-indicators to estimate direct economic loss in the housing sector attributed to disasters. Question might have been responded to under B-3 as a proxy for number of people whose dwellings were damaged attributed to disasters.

Do you collect number of dwellings that were damaged attributed to disasters disaggregated by event?

Yes

Do you collect number of dwellings that were damaged attributed to disasters associated with a hazard type?

Yes

Do you collect number of dwellings that were damaged attributed to disasters disaggregated by location?

Yes

Do you collect number of dwellings that were damaged attributed to disasters at all scales?

Yes

Does the collected data cover the entire period 2005 – 2015?

Yes

Indicator C-4: Direct economic loss in the housing sector attributed to disasters.

Data would be disaggregated according to damaged and destroyed dwellings.

Note: UNISDR can use the following sub-indicators to estimate direct economic loss in the housing sector attributed to disasters. Question might have been responded to under B-4 as a proxy for number of people whose dwellings were destroyed attributed to disasters.

Do you collect number of dwellings that were destroyed attributed to disasters disaggregated by event?

Yes

Do you collect number of dwellings that were destroyed attributed to disasters associated with a hazard type?

Yes

Do you collect number of dwellings that were destroyed attributed to disasters disaggregated by location?

Yes

Do you collect number of dwellings that were destroyed attributed to disasters at all scales?

Yes

Does the collected data cover the entire period 2005 – 2015?

Yes

Indicator C-4: Direct economic loss in the housing sector attributed to disasters.

Data would be disaggregated according to damaged and destroyed dwellings.

Note: UNISDR can use the following sub-indicators to estimate direct economic loss in the housing sector attributed to disasters

When do you plan to start collecting data on statistical data source provide (average value per square meter of construction, average size of dwelling, average value of dwelling)?

We have started

What resources do you need to collect data on statistical data source provide (average value per square meter of construction, average size of dwelling, average value of dwelling)?

Capacity

Financial

Technology transfer

Indicator C-5: Direct economic loss resulting from damaged or destroyed critical infrastructure attributed to disasters.

The decision regarding those elements of critical infrastructure to be included in the calculation will be left to the Member States and described in the accompanying metadata. Protective infrastructure and green infrastructure should be included where relevant.

Note: UNISDR can use the following sub-indicators to estimate a proxy for direct economic loss resulting from damaged or destroyed critical infrastructure attributed to disasters.

Do you collect data on direct economic loss resulting from damaged or destroyed critical infrastructure attributed to disasters?

Yes

Indicator C-5: Direct economic loss resulting from damaged or destroyed critical infrastructure attributed to disasters.

The decision regarding those elements of critical infrastructure to be included in the calculation will be left to the Member States and described in the accompanying metadata. Protective infrastructure and green infrastructure should be included where relevant.

Note: UNISDR can use the following sub-indicators to estimate a proxy for direct economic loss resulting from damaged or destroyed critical infrastructure attributed to disasters.

Do you collect direct economic loss resulting from damaged or destroyed critical infrastructure attributed to disasters disaggregated by event?

Yes

Do you collect direct economic loss resulting from damaged or destroyed critical infrastructure attributed

to disasters associated with a hazard type?

Yes

Do you collect direct economic loss resulting from damaged or destroyed critical infrastructure attributed to disasters disaggregated by location?

Yes

Do you collect direct economic loss resulting from damaged or destroyed critical infrastructure attributed to disasters at all scales?

Yes

Does the collected data cover the entire period 2005 – 2015?

Yes

Global target D: Substantially reduce disaster damage to critical infrastructure

Global target E: National and local DRR strategies by 2020

Global target F: Substantially enhance international cooperation to developing countries

Global target G: Availability of multi-hazard early warning systems and disaster risk information
