PPE – DIY Face Shield

- Face shield/eye visor/goggle is part of the PPE used by medical front-liners.
- High usage in hospitals, clinics, screening centres and quarantine centres.
- It can be produced by using stationery materials.

PPE – DIY Face Shield

PPE – DIY Face Shield

PPE – DIY Face Shield

What makes our effort significant?

1. We have **more than 10 Hubs established nationwide**, ensuring fast delivery to hotspots nationwide
2. Ability to cope with supply – We are able to produce **3,000 face shields a day** and ramped up more production to meet the demand. Our face shields also met the standard by the medical practitioners.
3. Clean and safe - Our volunteers are trained. We conduct a **thorough disinfecting procedures**
4. Cheap – we are able to produce these at **a cost of less than RM1 piece**, compared to other processes out there.

Coping with stress during the COVID-19 outbreak

It is normal to feel sad, nervous, confused, worried or angry during a crisis.
Talking to people you trust can help. Contact your friends and family.

Menangani stres semasa wabak COVID-19

Perasaan sedih, stres, kecewa, kebingungan, marah adalah biasa semasa menghadapi krisis.
Berhubung dengan orang yang anda percaya boleh membantu. Hubungilah ahli keluarga dan rakan-rakan anda.

在COVID-19疫情期间如何应对外力

在危机中感到悲伤、紧张、困惑、害怕都是很正常。和信任的人交谈会有所帮助。应与亲友保持联系。

We need solidarity, not stigma, to support everyone affected by #coronavirus.

Fear is never an excuse for racism or hate.

Kita memerlukan perpaduan, bukan stigma, untuk menyokong setiap orang yang terjejas oleh #koronavirus.

Ketakutan tidak pernah menjadi alasan rasisme atau dengki.

我们需要团结，而不是污名化，以支持受#冠状病毒影响的每个人。

恐惧从来就不是种族主义或仇恨的借口。

How to wash hands properly?
The duration of the entire procedure: at least 20 seconds or more

Bagaimana cara untuk mencuci tangan dengan betul?
Jangka masa seluruh prosedur: sekurang-kurangnya 20 saat atau lebih

Bagaimanakah cara untuk mencuci tangan dengan betul?
Jangka masa seluruh prosedur: sekurang-kurangnya 20 saat atau lebih

如何正确地洗手?
全过程所需时间: 至少20秒或更长

We are in this together. And we will get through this, together.

Kita berada dalam situasi ini bersama dan kita akan mengharunginya bersama.

我们共同面对这一切 我们将共同跨越这一切

COVID-19: Show love, #StayHome

The virus is a risk to those around us, especially older people and people who already have health problems.

The virus spreads quickly.

If too many people get sick at the same time, hospitals struggle to cope. There may not be enough medical resources to treat everyone in need.

What to do?

- Stay home
- Keep in touch
- Wash hands
- Spread kindness

COVID-19: Tunjukkan cinta, #DudukRumah

Virus ini adalah satu risiko kepada mereka yang berada sekeliling kita, terutamanya warga tua dan orang yang sudah ada masalah kesihatan.

Virus ini boleh merebak dengan cepat.

Jika terlalu banyak orang jatuh sakit pada masa yang sama, pihak hospital akan sukar menghadapinya. Kemungkinan sumber perubatan tidak mencukupi untuk merawat semua orang yang memerlukan.

Apa yang hendak dibuat?

- Duduk rumah
- Terus berhubung
- Cuci tangan
- Sebarikan kebaikan hati

COVID-19: #宅秀爱

该病毒对我们周围的人是个威胁，特别是老年人和有健康问题的人。

此病毒能迅速传播。

如果同时有太多人人生病，医院将难以应对。医院将可能没有足够的医疗资源治疗所有需要帮助的人。

该则么做?

- 宅在家里
- 保持联系
- 勤洗手
- 传播善意

Thank You

Drumvatory (Improvised Lavatory)

Drumvatory (Improvised Lavatory)

Procedures in making Drumvatories

1. Prepare all the materials and equipment
2. Make (2) holes at the side of the drum for the water source and outlet.
3. Make a hole on top of the drum depending on the size of your chosen lavatory
4. Connect the hoses to the lavatory for the water source and another hose for the water outlet
5. Seal the lavatory and the drum with a sealant as well as the holes of water source and water outlet
6. Paint the drum

Drumvatory (Improvised Lavatory)
