PHILIPPINE RED CROSS

RED CROSS 143

Riskland Board Game

START

1 Guide your community through all the hazards, reducing disasters.

2 Very good! You remembered to develop a family emergency plan. Now you are better prepared. Throw again.

3

4

5

6 You helped to clean a polluted river Advance six spaces.

7

8 Danger! A house was built on unstable ground. Go back three spaces.

9

10

11 Houses built near an active volcano! Stay away from the area. Go back 2 spaces.

12

13 Your community has been cutting down too many trees. Go back to the start.

14

15

16

17 La Niña warning is shared. There is danger of flooding. Go back three spaces

18 There was a flood in your community and you helped to evacuate your friends. Advance 4 spaces.

19

20 At school, you and RC 143 Youth prepared a risk map. Advance 7 spaces.

21

22

23 You got under a table to protect yourself from the earthquake Advance 4 spaces.

24 Skip one turn so you can get ready case there are aftershocks.

25

26 You looked for information on disaster prevention and environmental protection. Advance7 spaces

27

28

29 You planted seedlings to prevent landslides. Advance along this special path.

30

31

32 You discovered a flash flood on its way downriver. Advance five spaces to warn your community.

33

34 The factories in your community have polluted the river. Go back four spaces

35

36

37

38

39 Someone dropped a cigarette in the forest and started a fire. Advance 4 spaces to warn the firefighters.

40

41

42 El Niño warning is shared: Danger of drought leaves us without enough food. You will have to reinforce children's diet with dietary supplements and make sure that babies are getting mother's milk. Skip one turn.

43

44

45

46

47 You discovered a landslide hazard. Advance two spaces to warn the community

48

49

50 There have been increasing water shortages and your community did nothing to conserve water. Skip one turn

51

52

53 You shared with your family that higher temperatures caused by climate change have led to an increase in dengue and malaria carrying mosquitos. Roll again

54

55 Tsunami warning! You must be evacuated to higher ground. Advance 2 spaces.

56

57

58

59

60

61 A bridge is in poor condition. Fix it and advance two spaces

62

63

64

65

Keep rivers clean to prevent disasters

EVACUATION CENTER

EARTH QUAKE

CONGRATULATIONS

"You have learned how to prevent disasters. You, your friends and your community arrived safe and sound."
