

# GWSI basic logical framework

Narrative summary	Objectively verifiable indicators	Means of verification	Risks/Assumptions
<b>Overall objective</b>			
Contribution to sustainable improvement in health and well-being for N,000 villager in Region R (Country C)	<ul style="list-style-type: none"> <li>■ XX% of water and sanitation related diseases reduced by year Y.</li> </ul>	<ul style="list-style-type: none"> <li>■ Regional health survey reports.</li> </ul>	<ul style="list-style-type: none"> <li>■ Community is willing to adapt new practices.</li> <li>■ The community is willing to give reliable information.</li> <li>■ The community is willing to pay for O&amp;M.</li> <li>■ Volunteers are available and interested in the program.</li> </ul>
<b>Specific objective</b>			
Establishment of environmentally sustainable services for N'000 people (N,000 households, HH) by year Y in: <ul style="list-style-type: none"> <li>•Water supply</li> <li>•Sanitation, and</li> <li>•Hygiene promotion</li> </ul>	<ul style="list-style-type: none"> <li>■ XX% water and sanitation coverage is in-creased in the Region R.</li> <li>■ XX% of installed public water points and XX% of installed latrines are still operating Y years after the project.</li> <li>■ Hygiene awareness and adaptation at HH level is increased by year Y.</li> <li>■ Environmental mitigation or/and compensation measures, if needed, are put in place by year Y.</li> </ul>	<ul style="list-style-type: none"> <li>■ Baseline and impact survey report.</li> <li>■ Mid term and final evaluation report.</li> <li>■ Quarterly progress and interim reports.</li> </ul>	<ul style="list-style-type: none"> <li>■ Regional health survey reports available</li> <li>■ Project mid term and participatory evaluation reports available</li> <li>■ Quarterly progress reports and interim reports are available.</li> <li>■ Availability of contractors</li> <li>■ Availability of skilled local technical staff</li> <li>■ Availability of consultants</li> <li>■ Essential supplies are available in the local market.</li> <li>■ No major drought reported</li> <li>■ No major inflation</li> <li>■ No major epidemics</li> <li>■ No major security incidences.</li> </ul>

Narrative summary	Objectively verifiable indicators	Means of verification	Risks/Assumptions
<p><b>Results</b></p> <ol style="list-style-type: none"> <li>1. Construction of N viable, fully functioning and adequate community-managed water supplies by year X.</li> <li>2. Community based O&amp;M and cost recovery systems established and functioning.</li> <li>3. Sanitary teams built on existing capacities (local artisans) in the community and trained in latrine gender responsive construction and sale of latrine materials.</li> <li>4. Increased hygiene and sanitation awareness and adaptation at household and community levels.</li> <li>5. Partnerships and coordination linkages at all (national, regional and community) levels strengthened.</li> </ol>	<ol style="list-style-type: none"> <li>1. N,000 HH with minimum water supplies (20 lpcd), less than 30 minutes walking distance to public water points and within 1000m of water point throughout the year.</li> <li>2. Sufficient revenue is generated from the community to cover running costs, with 10% margin set aside for repairs.</li> <li>3. Routine and preventive maintenance undertaken satisfactorily on X% of water systems.</li> <li>4. O&amp;M budgets produced in X% of villages and X% of adequate water charges collected each year.</li> <li>5. No. of latrine slabs produced, No. of demonstration in latrine construction conducted, XX% of demand of sanitation increased, XX% women and the vulnerable are involved in design and location of communal/familiar latrines, No. of latrines sold per month, revenues.</li> </ol>	<ul style="list-style-type: none"> <li>- Field reports.</li> <li>- Inspection of random sample of x systems.</li> <li>- Quarterly Monitoring sheet Household (HH Observation sheet)</li> <li>- Baseline and impact survey report.</li> <li>- Mid term and final evaluation report.</li> <li>- Accounts and records of local WatSan committees.</li> <li>- Training evaluation forms.</li> <li>- Participant evaluation forms.</li> </ul>	<p><b>Activities</b></p> <p><i>Inception activities:</i></p> <ol style="list-style-type: none"> <li><b>A1.</b> Conducting a Baseline survey in water needs and demands.</li> <li><b>A2.</b> Conducting a Pre-feasibility study for technical options.</li> <li><b>A3.</b> Conducting an Environmental study.</li> <li><b>A4.</b> Conducting a Willingness to pay survey.</li> </ol> <p><i>Activities associated to R1:</i></p> <ol style="list-style-type: none"> <li><b>A5.</b> Community mobilization and signing of agreements in X villages.</li> <li><b>A6.</b> Tender procedure, signing of contracts and construction of X water systems.</li> </ol> <p><i>Activities associated to R2:</i></p> <ol style="list-style-type: none"> <li><b>A7.</b> Training of Community WatSan committees both in managerial/accounting and technical skills.</li> <li><b>A8.</b> Promote and facilitate meeting/trainings in leadership for all community members to be represented in decision-making (especially women and disable people).</li> </ol> <p><i>Activities associated to R3:</i></p> <ol style="list-style-type: none"> <li><b>A8.</b> Training of sanitation teams in latrine construction.</li> <li><b>A9.</b> Casting latrines slabs and conducting demonstrations of latrine construction at community level.</li> <li><b>A10.</b> Assisting the community in latrine construction.</li> </ol> <p><i>Activities associated to R4:</i></p> <ol style="list-style-type: none"> <li><b>A11.</b> Conducting basic ToT on PHAST and implementing PHAST at community level.</li> <li><b>A12.</b> Adopting PHAST toolkit to the target community.</li> </ol>

Eddy Hoshima de Boer/International Federation

**A13.** Producing IEC materials and conducting community hygiene and sanitation promotion campaigns at HH and community level.

*Activities associated to R5:*

**A14.** Establishing a Steering committee representing all the administrative levels.

**A15.** Holding an inception planning workshop for stakeholders annually.

**A16.** Conducting a stakeholder's analysis by year Y.

**A17.** Signing a MoU (Memorandum of Understanding) among the key implementing partners (including the community and local authorities).

*Common activities to all results:*

**Visibility, Documentation and experiences sharing:**

**A18.** Developing good practice guidelines/booklet by year Y.

**A19.** Holding Peer to Peer exchange visits annually.

**A20.** Setting up photo and video gallery (continuous process).

**A21.** Developing visibility materials by year Y.

**Monitoring & Evaluation**

**A22.** Developing participatory monitoring and evaluation indicators by year Y. Reviewing of indicators by year Y.

**A23.** Setting up monitoring annual planning.

**A24.** Holding mid term participatory stakeholder evaluation consultations by year Y at all levels.

**A25.** Holding final participatory stakeholder evaluation consultations by year Y at all levels.
