

The Sendai Framework Monitoring Process & CSO Contributions

**Mr Timothy Wilcox
UNISDR (Asia and Pacific Region)
21 February 2018**

Outline

- Upcoming Key dates for reporting
- Differences with previous HFA reporting
- Interactive Prototype
- Possible CSO Contribution Options
- Upcoming support to countries

UNISDR Support (Tools and Documents)

Availability of Tools

1 January 2018

- Updated Disaster Loss Accounting Tool

1 March 2018

- Online Sendai Framework Monitoring System (Global Targets)

1 May 2018

- Online Sendai Framework Monitoring System (Custom Targets)

Key Dates and Milestones

2018 Dates for Reporting

31 March 2018

- Member States to report on data for 2017 specifically for Sendai Targets A to E (required for SDG indicators)
- Data will be forwarded to HLPF for the July 2018 SDG Reporting

1 October 2018

- Member States to report on data for 2015, 2016 and 2017 for all Sendai Targets A to G
- To be used for Global Platform 2019 and Global Assessment Report (GAR) 2019

Key Dates and Milestones

2019 Dates for Reporting

31 March 2019

- Member States to report on data for 2018 for Sendai Targets A to E (required for SDG indicators)
- Data will be forwarded to HLPF for the July 2019 SDG Reporting

Baseline data

30 April 2019

- Member States to provide Baseline Data for 2005 to 2014 for Sendai Targets A-B
- Baseline Data for Targets C-D is optional

Key Differences with Previous Reporting

HFA

- Reporting heavily reliant on country reporting capacity
- Mostly Qualitative
- Reporting every two years
- No coherence with MDG reporting
- Self-assessed ratings

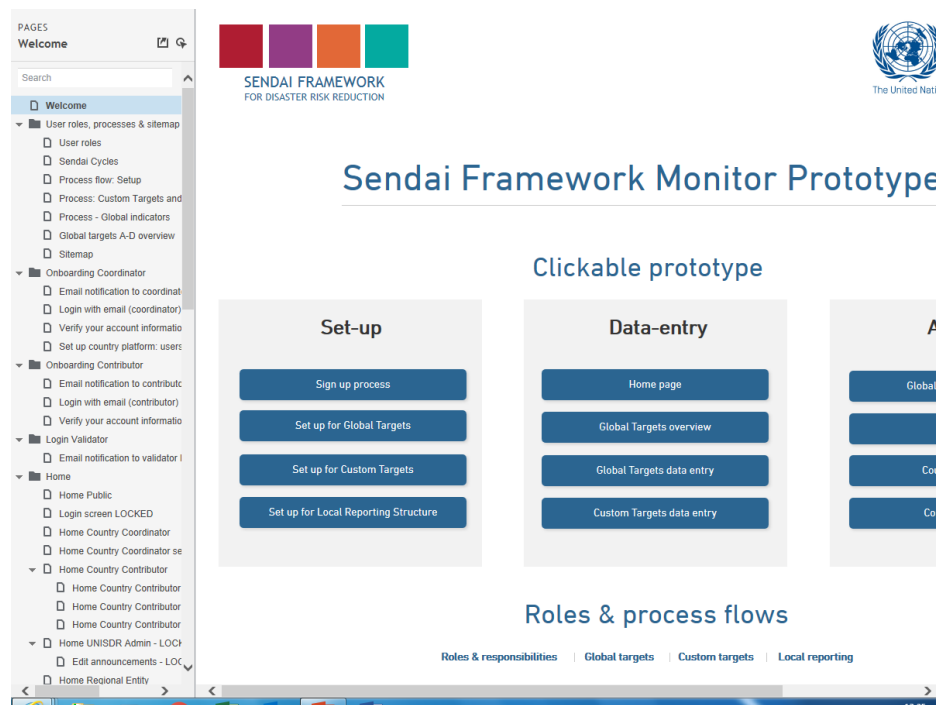

Sendai

- Blend of Quantitative and Qualitative
- Coherence with SDG reporting
- Minor reporting each year (for SDGs) plus
Major reporting once every two years (Sendai cycle)
- Partner input options for reporting (Country Contributors)

Interactive Prototype

The interactive version of the Online Monitor is at:

<http://www.unisdr.org/go/sfm>

Possible CSO Options for SFDRR

National Options

- 1) Submit CSO data to Country Sendai Focal Point; or**
- 2) Request Country Sendai Focal Point to make CSO a “Country Contributor” for specific indicators**
 - This will give partner access to enter data on specific indicator(s) of the Government’s choosing;
 - Country (Government) will validate data and control what data is included on system.

Regional Options

- 1. Options same as above but for regional reporting:**
 - ADPC (Asia) and
 - SPC (Pacific)

Regional Support in Asia Pacific

- Exploring creation of “How to” short instructional videos
- Initial Training and Familiarization workshops (2018)
 - 5-6 March (SE Asia) - Bangkok
 - 8-9 March (South Asia) - Bangkok
 - 8-9 March (NE Asia) - Incheon
 - 26-27 March (Pacific) – Suva
- SFM Tech Support from Asia Pacific (Bangkok Office)
- Encourage countries to use local, national and regional partners to support national reporting (reduce burden)
