Concept Note

5th South East Asia Youth Network (SEAYN) Annual Meeting cum Youth Empowerment in Community (YEC) Programme

1. Background

Strategy 2020 stresses the importance of the Red Cross and Red Crescent Youth “acknowledging their skills as innovators, inter-cultural ambassadors and peer- to-peer facilitators”. Youth Policy (2011) and Youth Engagement Strategy (YES) 2013 also promotes national, regional, and international networks established by young people themselves as “an invaluable contribution to sharing knowledge and innovation across the Red Cross Red Crescent Movement”.

The South East Asia Youth Network (SEAYN), a sub-network to APYN has a special characteristic as a youth network by ensuring equal participation of NS staff and Youth leaders in it. By nominating their NS youth staffs and youth leaders (volunteers) to be members of the SEAYN, each NSs in the SEA region follows the SEAYN terms of reference which its annual meeting will be the main decision-making body hosted by the Chair’s NS, officially endorsed by the Southeast Asia Leadership Meeting held in Singapore in March 2014.

The SEAYN nominates its Coordination Team in the Network annually and develops its action plans to allow for SEA National Societies to strengthen youth and to encourage youth initiatives through the SEAYN, while also building capacity to extend peer to peer support among the SEAYN.

Following the SEAYN Terms of Reference, the 5th SEAYN Annual meeting will be held in Chair’s country-Philippines with meaningful youth action; Youth Empowerment in community (YEC) by using the newly developed YEC module.

IFRC Bangkok office has developed a YEC module designed for Youth volunteers’ meaningful action in communities. This module is the youth-led programme aiming to inspire a positive change of mindset, attitude and behaviour of community/school by innovative solutions to the social, cultural, economic and environmental challenges in the communities across the country and finally to strengthen the bonds between peers, community people and Red Cross Society.

This module has been tested in several NSs in Southeast Asia as pilots. Especially Cambodia, Lao and Vietnam are already implementing this module and several NS practitioners and IFRC staff have provided technical support to its content and process. This module will be the 2nd module as the SEAYN initiative following the YSS module in 2016. This will be a benchmark for the SEAYN since it can equip with two modules designed for youth friendly programme in a powerful way to change their communities and educational centers into peaceful and resilient ones.
Concept Note

All in-country costs (accommodation, meals and local transportation) will be borne by the Philippines Red Cross and the cost (airfare with per-diem, taxi in respective country) will be covered by IFRC Bangkok office. Singapore Red Cross and Brunei Red Crescent will be consulted with the IFRC Bangkok office.
