Mainstreaming DRR into Development
Vietnam Case Study
Regional Lessons Learned Workshop on

20 years of DIPECHO Actions in Southeast Asia

Project based → Institutionalization
PILOTTING PHASE:
Bottom up, multi projects & multi partners approach
- building evidences
- building capacity & creating a community of DRR Practitioners
CREATING MOMENTUM: through Joint Advocacy Network Initiative (JANI)

- Influencing Government Strategy (MARD & MOET…)

PILOTING PHASE:
Bottom up Approach
2000s 2007 2007

PILOTHING PHASE: Bottom up Approach

Joint Advocacy Network Initiative (JANI)

✓ DIPECHO Partners support the Development of the National Strategy for Natural disaster Prevention Response and Mitigation (to 2020)
Regional Lessons Learned Workshop on
20 years of DIPECHO Actions in Southeast Asia

PILOTTING PHASE:
Bottom up Approach

Joint Advocacy Network Initiative (JANI)

2007

National Strategy 2020

✓ National program for community awareness raising and CBDRM (decree 1002)

2009
Regional Lessons Learned Workshop on
20 years of DIPECHO Actions in Southeast Asia

PILOTTING PHASE: Bottom up Approach

2000s

2007
Joint Advocacy Network Initiative (JANI)

2007
✓ National Strategy 2020

2009
✓ National CBDRM program (decree 1002)

2014
✓ Law on Natural Disaster Prevention and Control

International Federation of Red Cross and Red Crescent Societies

Funded by European Union Civil Protection and Humanitarian Aid

A Canada-ASEAN project. Funded by Canada
Regional Lessons Learned Workshop on
20 years of DIPECHO Actions in Southeast Asia

2000s

PILOTING PHASE:
Bottom up Approach

Joint Advocacy Network Initiative (JANI)

2007

✓ National Strategy 2020

2007

✓ National CBDRM program (decree 1002)

2009

✓ Law on Natural Disaster Prevention and Control

2014

❖ Promoting info sharing (6 mil. ppl reached, 14 provinces..)
❖ Influencing tools, approaches (VCA, CBDRA guidelines)
❖ Championing cross-cutting issues (gender, PWD, children, elder..)
❖ Innovation (urban DRR, GIS mapping, PAPE, TRE, DAISY..)

PILOTING PHASE: Bottom up Approach

2000s
Joint Advocacy Network Initiative (JANI)

2007
✓ National Strategy 2020

2009
✓ National CBDRM program (decree 1002)

2014
✓ Law on Natural Disaster Prevention and Control

2016, 2017
✓ CBDRM integration into Socio-Development planning
✓ CBDRM integration into National Target programs for new rural development

2017
✓ Updated national CBDRM program with urban adapted tools and guidelines
✓ Updated cross cutting issues according to Law on NDPC

International Federation of Red Cross and Red Crescent Societies
Canada-ASEAN project. Funded by Canada

PILOTING PHASE: Bottom up Approach

- Joint Advocacy Network Initiative (JANI)
- National Strategy 2020
- National CBDRM program (decree 1002)
- Law on Natural Disaster Prevention and Control
- CBDRM integration into Socio-Development planning
- CBDRM integration into National Target programs for new rural development
- Updated national CBDRM program with urban adapted tools and guidelines
- Updated cross cutting issues according to Law on NDPC

International Federation of Red Cross and Red Crescent Societies
Gaps and Way Forward

• Mobilization of disaster Management fund - contributed from different sources including private sector

• Institutionalization of the learning, guidelines, to permanently train new trainers on CBDRM/A and technical supporting & community groups
Gaps and Way Forward

• Establish a consistent training mechanism from national to community level

• Capacity building for TSG and community groups for supporting participatory CBDRM in NDPC planning and response plan, take into account Gender & at-risk groups

• Promote technology in disaster risk management (especially in urban context)

• Strengthen legal framework to mobilize resources from stakeholders (esp. private sector & local ppl)
Success Factors

1. Build evidences and capacity
2. Create momentum and advocacy to influence government’s approach – via consortium
3. Bring in cross cutting issues – keep reviewing approaches and improving tools based on experiences. To fit the projects in legal framework & national strategy and answer to specific needs in terms of capacity
4. Cross learning with other countries (BUR project: 4 countries)
Success Factors

1. Awareness of leaders at all levels to set legal framework and support implementation of activities

2. Establishment of forum, symposium, working groups for all related stakeholders (incl. Government departments, (I)NGOs, mass organizations, research agencies…) for sharing info, cooperation, resource mobilization following consistent strategy of the government

3. Mobilize and maintain sustainable resources (D.M fund)

4. Apply technology in DRM
Success Factors

5. TSG & community groups are established, trained and capable of carrying out activities

6. Advocate for integration of CBDRM into school curriculum and strengthen School Safety framework, especially ethnic minorities and inclusive school for disabled children

7. Continuous technical and funding support from (I)NGOs and donors

8. Active engagement in international framework/platform (Sendai, Paris agreement, AADMER)
Thank you
