Thai Red Cross Society (TRCS)’s Relief and Community Health Bureau at the headquarter and all of its 14 health stations across the country participated in the celebration of the International Day for Disaster Risk Reduction (IDDR) and the ASEAN Day for Disaster Management (ADDM) throughout the month of October 2019.

Welcome to our October 2019 Southeast Asia news updates. In addition to these monthly updates we send to you every month, you could also find Southeast Asia Red Cross Red Crescent’s resources, tools, events and updates at Resilience Library at http://www.rcrc-resilience-southeastasia.org.
Thematic Updates from Southeast Asia

At Regional Level:

16th Southeast Asia Red Cross Red Crescent Leadership Meeting

Eleven Southeast Asian Red Cross and Red Crescent National Societies met during 24-25 October 2019 for the 16th Southeast Asia Leadership Meeting in Manila, Philippines. This year, the meeting focused on the National Societies’ commitment and plans to fulfill the Manila Call for Action that outline the commitments and targets to engage local humanitarian actions. The annual meeting also provided an opportunity for the National Societies to share their successes, challenges and future directions and to promote peer-to-peer learning. Click here for more information on the meeting.

ASEAN Safe Schools Initiative Regional Learning Event

On 29-30 October 2019 in Bangkok, the Government of Thailand hosted the ASEAN Safe School Initiative (ASSI) Learning Exchange Event: "bringing in digital innovation and innovative approaches in school safety in ASEAN", supported by and in coordination with the ASSI consortium partners and ASEAN Secretariat. The event aimed to create a hub and marketplace for sharing and learning of the ASEAN community on school safety, in particular, for this occasion on digital innovation, technology utilization, evidence-based researches, tools and innovative approaches in school safety interlinked with child protection, climate change adaptation, emergencies, etc. IFRC and Thai Red Cross Society took part at the event and showcased the series of Safe Steps Kids Cartoon developed to raise awareness among kids on disaster preparedness, as well as the use of Virtual Reality technology in providing users a better understanding of how to respond to disaster in real time. Click here for more information.
Highlight Updates from National Societies

Indonesia

Sukabumi Red Cross Chapter Trains Volunteers for Disaster Preparedness

The Indonesian Red Cross (PMI) of Sukabumi City, West Java recruited volunteers to take part in the community-based disaster preparedness in the village, as part of PMI’s pilot programme focusing on earthquake readiness. The programme aims to promote knowledge and understanding of earthquake disaster preparedness in respective regions to minimize the loss of lives and properties. The volunteers are expected to play an active role in disaster risk reduction preparedness. Click here for more information on the programme.

Indonesian Red Cross Provides Psychosocial Support to Ambon Earthquake Survivors

The Indonesian Red Cross (PMI) provide psychosocial support to children who are displaced after a 6.8 magnitude earthquake hit Ambon on 26 September. The children were invited to join a game on disaster preparedness. The activities aimed at improving the psychosocial well-being of individuals to be able to function optimally at the moment of crisis in a disaster situation. Click here to read the full story by PMI.

Lao PDR

Lao Red Cross Provides Clean Water, Health Promotion to Flooded Communities

In October 2019, Lao Red Cross (LRC) continues to assist communities in six southern provinces that were affected by tropical storms and severe flooding. Water purification units (AP700) were dispatched to the affected areas to produce clean water for household utilization. LRC also provided basic health care and demonstrated good practices in maintaining personal hygiene to stay healthy and prevent diseases.
Malaysia

Malaysian Red Crescent Society Conducts State Disaster Response Team Training

The State Disaster Response Team (SDRT) training was designed as a grassroots initiative and specifically structured so that the local and state volunteers of Malaysian Red Crescent Society (MRCS) have the flexibility to form their disaster response team in the way that best suits their disaster response. SDRT focus on enabling MRCS state volunteers to improve and enhance capacity of MRCS disaster response team in various sectors and thematic areas, utilizing the technical skills and knowledge developed and gained from training. MRCS currently has around 149 volunteers nationwide. This training is also supported by facilitators from ICRC, IFRC and National Disaster Management Agency (NADMA) Malaysia. Click here to see photos from the training in 2019.

Myanmar

Myanmar Red Cross Holds Training on Human Trafficking, Humanitarian Needs of Trafficked People

On 26-28 September Myanmar Red Cross Society (MRCS) held a 3-day training course on Understanding human trafficking and the humanitarian needs of trafficked people in the Myanmar context. The training was opened by the President of MRCS, and was attended by 15 participants, comprised of members of the MRCS Migration and Displacement Task force (Directors of Departments and Branch leaders of MRCS). The training was facilitated by the British Red Cross Anti-Trafficking Advisor.

Philippines

Philippine Red Cross Volunteers Join Health Department To Counter Polio

Volunteers of the Philippine Red Cross (PRC) joined the Sabayang Patak Kontra Polio campaign of the Department of Health (DOH) to conduct door-to-door vaccination for children ages 0 to 5. Each vaccination team deployed to the barangays is composed of four volunteers – a team leader, a health educator, a recorder, and a vaccinator. This strategy not only ensures that vulnerable children are vaccinated and properly recorded but also provides an avenue to explain the vaccines to parents and guardians. The DOH recorded a 95 per cent decline in polio vaccination among children below five years old last year. Click here to read the full story by PRC.
Singapore

Singapore Red Cross Enhances Disaster Preparedness for Elderly Residents

Singapore Red Cross Youth educated elderly residents on the importance of emergency preparedness, through first aid-related station games and a Virtual Reality (VR) station on fire safety at the Halloween First Aid Fiesta at Khatib Plaza on 18 October. The Safe Steps ambassadors were also on hand to conduct cardiopulmonary resuscitation (CPR) demonstrations and reinforce the importance of emergency preparedness. The youth also carried out a door-to-door community data mapping exercise at Khatib on 28 September.

Thailand

Thai Red Cross Health Stations Hold Country-Wide Celebration of International Day for Disaster Risk Reduction

Thai Red Cross Society (TRCS)’s Relief and Community Health Bureau at the headquarter and all of its 14 health stations across the country participated in the celebration of the International Day for Disaster Risk Reduction (IDDR) and the ASEAN Day for Disaster Management (ADDM) throughout the month of October 2019. Each of the station carried out different activities which all centered around mitigating the impact of climate change i.e. tree planting in coastal areas to prevent erosion, beach cleaning, replacing plastic bags with tote bags, providing training on disaster preparedness to the elderlies, and community-based disaster risk reduction. TRCS also participated in Thailand’s Department of Disaster Prevention and Mitigation’s IDDR/ADDM celebration on 10 October by showcasing the Virtual Reality tools developed to provide user virtual simulation of how to handle emergency situation and the community/school-based disaster risk reduction activities. At the event, TRCS also introduced “Phonphai” application through which users are able to report disasters and request aids. The information collected through the application will be shared among disaster management agencies including TRCS.

Thai Red Cross Mobile Medical Unit Provides Health Services in Kamphaengpet

Thai Red Cross Society’s mobile medical unit visited several communities in Kamphaengpet Province in late October 2019 to provide basic health and dental services as well as disseminate information on safe use of chemicals and how to prevent and treat when exposed to poisonous animals. The communities were also given basic medicine, medicine cabinets, and wheelchairs.

Viet Nam

Vietnam Red Cross Conducts Workshop To Visualize Future Priorities

From 10-12 October 2019, leadership and the management of Vietnam Red Cross (VNRC) gathered in Hanoi to visualize the future of VNRC in 2030 and beyond. The workshop was participated by both VNRC’s external and RCRC Movement partners. The process aimed to stimulate ideas and visualize VNRC that is attuned to current times and built on the experience and knowledge gained over the years, taking into account challenges and opportunities in the current context of the country. As part of the process, models of sustainability and institutional strengthening will be defined. Click here for more information.
